

Today's work environment looks a lot different than it used to

MORE COMPLEXITY.	<i>Multiple workstreams, systems and processes.</i>
CONSTANT CHANGE.	<i>Shifting focus leads to wasted budgets.</i>
DISPERSED TEAMS.	<i>Distributed, remote, and multidisciplinary workforce.</i>
BLURRED BORDERS.	<i>Work spans partners, vendors, and departments.</i>
FASTER OUTPUT.	<i>More deliverables and tight timelines than ever before.</i>

60% of work today is **“unstructured”** – fluid, reactive, and ad hoc activities often requiring collaboration and managed using generic tools like email, calendars, docs, and spreadsheets

To innovate and win, organisations must become **DYNAMIC**

Smartsheet is the only platform that can scale from a single project to end-to-end work management, connecting business on a no-code, cloud-based platform where anyone can create the solution they need — the Dynamic Work Management tool that empowers organizations and teams to dynamically plan, execute, and report on work to move faster, drive innovation, and achieve more.

- **Align work, people, and technology:** Bring together people, processes, and technology to connect the work being done across your organization — and ensure alignment with corporate goals
- **Empower teams to rapidly build digital solutions:** Give everyone the power to automate workflows and design solutions that work based on their needs with an intuitive, no-code platform
- **Move quickly and act with agility:** Give people a solution flexible enough to adapt to the nature and scale of any initiative so your organisation can rapidly respond to constant change with agility
- **Better Decisions Faster:** Get real-time visibility into what matters most to your business with one version of the truth and real-time reporting across your whole portfolio, department or project
- **Increased productivity:** Reduce time spent on routine work with automated workflows and pre-built forms, sheets, reports and dashboards and templates you can modify and adapt whenever
- **Deploy with Confidence:** Enterprise-grade security controls, trusted by 90% of the Fortune 100

Highly intuitive and user-friendly, Smartsheet can be deployed rapidly and provide value instantly:

- **Intelligent sheets** that interact in real-time with connected sheets to cross-reference and update information, with powerful automation to send alerts, generate updates or move data
- **Simple forms** with logic for consistent data entry, feedback, questionnaires or updates
- **Powerful reports** that consolidate specified information with user-defined views
- **Real-time dashboards** summarising key business data how you want it
- **Mobile** so you can access and collaborate on the move
- **Fully integrated** with all major systems of record and productivity apps your teams use everyday, unifying all of the work across your organization on a single platform

With use-cases across all industries and functions, see how organisations across the world leverage the power of Smartsheet to gain competitive advantage: www.smartsheet.com/customers

Roche: *“we have seen productivity increases within our product project management organization of 30% and 40%. Same head count, more projects, more improved customer experiences, simply by eliminating waste and utilizing a more efficient platform.”*

For an exploratory conversation on how Smartsheet could benefit your organisation, from employee and supplier onboarding, marketing campaign and inventory management, approving proofs or PMO, and how we can help accelerate its implementation and adoption, contact **Rich Coles** rich@productive.co.uk
